

Accessibility Statement

KBIS LTD is a unique stand-alone boutique unit, which is part of Matrix – the largest information technology company in Israel. Matrix is engaged in integration projects, development and implementation of technologies, software solutions and products, representation and marketing of worldwide-leading software products, infrastructure services, offshore consulting, outsourcing, testing, training and deployment. The uniqueness of KBIS lies in its ability to adapt technologies and solutions for its customers, to create the proper connection between business and technology.

It is important for us at KBIS to provide high-quality, available, effective, and equal service to all our customers. To this end, we are determined to implement improvements that will enable people with disabilities to access our sites both physically and online. These efforts are directed at the accessibility of our digital assets and at making our buildings throughout the country accessible.

Building accessibility arrangements

Company	City	Address	Accessibility	Access to building	Disabled parking	Disabled services	Wide passageways	Signage	Accessibility aids available to all disabilities
KBIS	Tel-Aviv	94 Yigal Alon	Accessible	Yes	Yes	Yes	Yes	Yes	Yes

If you wish to come to our office to receive information, you have an option of sending forms and information leaflets by e-mail to orit.shachar@kbis.co.il. Alternatively, you can contact us through this site.

Website accessibility

The site has an accessibility button. Pressing the button opens a menu where you can select the desired accessibility services, as needed. After you make a selection in the accessibility menu, the website is quickly adjusted according to the accessibility rules. Choose a profile from the following list to adapt the site to your needs: visual impairment (adaptation to the reading program), color blindness, limited use of hands, epilepsy, and help in understanding the site.

Accessibility adjustments are carried out according to the recommendations of the Israeli standard (IS 5568) for access to content on the Internet at the AA level, and the international WCAG2.0 document. This site complies with the Equal Rights for Persons with Disabilities Regulations (Accessibility Adjustments for Service), 5763-2013.

The KBIS site enables accessible browsing with the latest versions of the most popular browsers. It is also optimized for popular browsers running on mobile phones. The recommended browser for good accessibility support is Firefox with the NVDA screen reader. For the Internet Explorer, the recommended screen reading software is JAWS.

The site is conveniently built for simple navigation and orientation. The content of the site was written with attention to clarity, for the sake of user-friendly reading and optimal understanding.

Site operations and accessibility aids

For easy and convenient surfing, we embedded Sogo in the KBIS website, an advanced system that enables you to adapt the site to your needs.

An accessibility button appears in the bottom right corner of the screen. Press the button to open a menu that lets you choose between several options:

B&C – adjusts the site to black and white colors. Designed for color-blind and visually impaired people.

Contrasts Dark / White – adjusts the site to contrasting colors to increase the contrast. Designed for color-blind and visually impaired people.

Stop Movement – Adjusts the site for epilepsy patients by blocking flickers and fast-moving elements.

Readable Font – Adapts the site to reading using the screen reading software. Designed for blind and visually impaired people

Underline Links – Marks hyperlinks with an underline for better visibility. Designed for visually impaired people.

A A A –Adjusts the site's font size for visually impaired people and ease of use.

Submitting requests, reporting accessibility problems, and suggesting improvements
